

PHONE CALLS

Office Phone Number: 801-569-2626

Office Phone Hours: M-F 8:30AM – 4:00PM (except Holidays)

For routine matters or lab results, please call on the days your medical provider is in the office. There is always a doctor on call for emergencies.

Before you call the office . . .

- * Check to see if your question can be answered from the information in this folder, from the book “What to Expect When You’re Expecting”, or from our website www.svwhc.com.
- * Evaluate your symptoms, make notes, and take your temperature if you suspect a fever.
- * Make the call yourself, as it is difficult to relay messages through another person.
- * Have the following information available: your month of pregnancy, medications you are taking, and your pharmacy phone number.
- * Have a notebook and pen ready to write down your instructions from the doctor or nurse.

*****IF YOU FEEL YOU HAVE AN EMERGENCY THAT CANNOT WAIT UNTIL YOUR PROVIDER OR NURSE CAN CALL YOU BACK, PLEASE GO TO THE EMERGENCY ROOM (if before 20 weeks of pregnancy) OR LABOR AND DELIVERY (after 20 weeks of pregnancy) FOR AN IMMEDIATE EVALUATION*****
